

OPS Bulletin

Ramp Safety Reminders

July 29, 2019

Reminders:

- All equipment not in service must be parked outside of the restricted area
- Brakes must always be applied on parked dollies with or without ULDs
- Always comply with posted speed limits
- Equipment brake checks must be performed prior to every use
- Side and end locks must be in working conditions
- Locks must prevent lateral and vertical movement of ULDs

There have been instances of cargo containers becoming loose and making contact with aircrafts. Such incidents could result in flight cancellations and costly maintenance.
