

# SAFETY ALERT

No.12

## **Graffiti and Vandalism on the TBIT Baggage Handling System (BHS)**

*Revised February 14, 2019 to reference LAWA Rules and Regulations*

There have been multiple incidents of vandalism and defacement of the BHS, particularly in the TBIT Bag Room. The BHS is made up of many electrical and motorized components, and an interference could result in equipment failure and severe impact to baggage operations.

Additionally, the vandalism is unsightly and its removal is time consuming.

Please brief all staff, especially those working in the TBIT Bag Room, of the consequences of vandalism on the BHS.

As per the LAWA Rules and Regulations, violating the policies in this alert can result in the following disciplinary actions:

- Defacing, tampering or vandalizing Airport property, security systems, devices, or Airport issued ID badge – 4 points or badge confiscation
